

WELCOME to the Invitational Preview of General Motors *Futurama*

As a guide for your enjoyment of the exhibit, here is the order in which you will visit the various sections of the building:

FUTURAMA RIDE—General Motors conception of the World of tomorrow. Not a fantasy but a documented prediction of scientific advancements which are entirely feasible and practical.

AVENUE OF PROGRESS—A group of exciting research developments graphically exhibited. Dominating the area are several General Motors "dream cars" of experimental design.

UPPER PRODUCT PLAZA—A display of current General Motors cars amid settings typical of the United States. GM's overseas displays are shown in their national settings.

LOWER PRODUCT PLAZA—Other GM products including dramatic Frigidaire kitchens from around the world.

•

A diagram of the Futurama Building is shown on the reverse side.

•

For Your Convenience:

Wraps may be checked at the entrance. They will be ready for you at the exit in the Lower Product Plaza where cars will take you to the Terrace Club for the reception and dinner dance.
